RAMEN The Soul Food of Japan.

Ramen is the soul food of Japan. The harmony of noodle, soup and soup base defines traditional ramen. Soupless Ramen (Shirunashi Ramen) or Abura Mien has been a microgenre of the ramen world and is a dry noodle dish that provides a flavour intensity beyond soup-based ramen.

This is the perfect ramen for the Maldives! No hot soup to deal with, and the amazing flavour of the giant freshwater prawns shines through the noodles. \$50

"Wa" means Japanese and "Gyu" means Cattle. When put together it translates to Japanese Cattle. The most prized Wagyu beef is from "Kuroge" cattle, and it is mandatory that they are born and bred in Japan. A5 Kuroge Wagyu is arguably the best beef in the world and there is no disagreement or debate amongst chefs about this topic. It is my belief that the language barrier has resulted in the fraudulent use of this term, that has driven Australian and American meat packers to loosely use this term as a marketing tool.

Over the last fifty years many countries have tried to duplicate the same marbled beef. Some countries imported Wagyu Cattle from Japan as well as semen of Kuroge Cattle to artificially inseminate local cattle. They could never recreate the same richness and splendour of Wagyu. The meat you see bearing the Wagyu label from these countries are their best attempts and a poor substitute for Real Wagyu.

At Nihonbashi, I have abstained from serving such fake Wagyu from the very beginning. I have even come across beef that has Japanese Wagyu fat injected into the meat for added flavour and firmly believe that such processes should be banned. Ingredients are to be respected along with their origins and the word Wagyu should not be abused and ridiculed simply for commercial means.

I often wondered- if I brought a cow from Australia to Sri Lanka and subsequently produce a calf, will that meat qualify as Australian beef? Would I be able to export it to Dubai as "Australian Beef'?

Say NO to Fake Wagyu!

お味噌汁 Miso soup

Miso soup at Nihonbashi is made the traditional way, using freshly made dashi (stock). Both this dashi and the vegetables which go into our miso change daily. While many assume that miso is a totally vegetarian soup, this is not the case as it contains stock made from bonito flakes (skipjack tuna). We would be more than happy to make you vegetarian miso using shiitake stock but please bear with us as this will take a little extra time.
